# LEAD AND COPPER AT DUGWAY CAMP

Company's Mines Has Opened a Big Ore Body.

# ANOTHER NEVADA STRIKE

ORE WORTH \$10,000 A TON CAUSES STAMPEDE.

With great chunks of galena ore liberally sprinkled through with copper pyrites, Superintendent B. L. Cutler of the St. George Copper company's Dugter of the population with the control of the population of the population with the control of the population of the control of t way properties came in from camp yesterday morning. It was early in the month that Mr. Cutler was ordered life." said Mr. Kelly, "and, had it not life." by the board of directors of the company to get back to camp and inaugurate the season's campaign of development. The property was only closed development and the company to get back to campaign of development. The property was only closed development. The property was only closed development. The property was only closed and realized what was the matter. I

he should be dispatched to the mine were prospering. It is a great country again as soon as he was able to stand and no mistake." it. After drifting forty feet from the bottom of the shaft, which cut the conbottom of the shaft, which cut the contact just before the 300-foot level was reached, ore of fine quality began to come in and when Mr. Cutler left the mine on Tuesday, the drift had been by making a payment down, he had extended ten feet into solid galena ore secured a short time option on an eliof the character mentioned. The rock is not expected to run very high in silver, but in lead and copper it is cer-tain to carry well, while the expectation is that a nice percentage of iron will be disclosed, also. Assays will be had on the ore today. The samples displayed at the company's offices show many of the characteristics of the Stockton ores and the management is confident that a shipper is going to re-

### BOOSTS UTAH MINING.

### Local Operator Talks in Denver of Local Conditions.

"I predict that in another five years the output of mineral wealth from the state of Utah will have grown to be greater than that of any other state in the union. I predict also that Salt Lake City will be the future smelting center of America.'

John P. Olympius, a wealthy and practical mining man of Salt Lake and Bingham, who is a guest at the Hotel Metropole, made the above prophecies last night in describing the wenderful boom in the mining indus-tries of the Mormon state, says the Denver Republican. Mr. Olympius has \$5,000,000 and is today worth more than day me

pal thing, but there are great quanti-ties of silver and lead being taken out. smelter and is handling 1,000 tons a The Boston Consolidated is going to mine with a steam shovel, and intends to build a large concentrating

Causing Stock to Move Up The Utah Copper company build a great mill, on which work has already been begun and which will be completed in another year. It will have a capacity of 6,000 tons a day.

"The Yampa mine has a smelter of its own which is handling 600 tons of ore a day. The United States Mining

"The present condition of the camp is a most flourishing one. The Guggenheims are making some large investments there. Several big consolipurpose of reducing the cost of admin-Consolidated is off for the time being, negotiations having been stopped, mark. negotiations having been stopped.

"There are now four big smelters in or near Salt Lake, and there is one at Bingham. The present output of Bingham is 5,000 tons a day, but when Discovery in Southwestern Portion of these new mills and smelters are completed the output will be trebled. The American Smelting & Refining company will have its glant new smelter completed this summer, and it will handle 3,000 tons of ore daily. It will be one of the greatest smelters in a claim in Lost Springs district which America and next in point of size to gave returns of 39.4 per cent copper and America and next in point of size to
the great Washoe smelter at Anathe great Washoe smelter at AnaThe Prandsens received returns from The new smelter is to be located at Gartield Point, twelve miles from Salt Lake. The importance of this great smelter to the community can be realized when it is known that the Utah Copper company's mill and the Garfield Point smelter will alone

employ 2,000 men. "Other near-by camps, Park City, from the railroad. ducing heavily and showing a larger of Utah in mining is particularly bright at this time. The state's mineral resources are practically unlimited."

Three Cars Now in Market Will Net Company \$2,000.

# RETURNS WITH THE FEVER.

# E. W. Kelly Declares the Nevada

Boom is a Screamer. E. W Kelly manager of the Utahna-Goldfield company's properties, which are located east of the foot levels below the tuner. Black Butte and other mines in the vicinity of Diamondfield, Nevada, returned from a several days' trip to fact that the mine is beginning to procamp Tuesday night. Accompanying duce it in quantity gives some idea of Mr. Kelly on the trip was Frank Jarthe nature of recent developments. dine, we'll known here as a mine superintendent and expert miner, who has been prevalled upon to take charge of the mines under Mr. Kelly.

property is located, Mr. Kelly says, is coming rapidly to the front, and it is the purpose of his company to now crowd development on its claims, the everal ledges in which all all show good surface values. A company oper-Superintendent of St. George Copper are going to prove big ones with devel-

most of the excitement exists only in the imagination of the news-paper writers, is quickly undeceived, and he is a cold-blooded mortal if he twenty-four hours after hitting camp. "I never saw anything like it in my ment. The property was only closed down early in the year because of Mr. Cutler's illness, which resulted in his being operated upon for appendicitis and a long siege of slow recovery.

That conditions were ripe for a strike when the property was closed down surrounding camps, were continually have the beautiful in the property was closed down surrounding camps, were continually have the beautiful in the property was closed down surrounding camps, were continually have the property was considered what was the matter. I should like to go back now, for I am certain that I could make money by turn I made, men that I had known here in Salt Lake or in some of the surrounding camps, were continually was the report then brought in by the bumping into me, and all of them, so superintendent, so it was natural that far as I was able to see and learn,

Among other well-known Salt Lakers secured a short time option on an eli-gibly located group of claims. He told Mr. Kelly that he had hardly closed the deal before he was offered \$1,000 to turn over his option, but he was confident of making a great many times \$1,000 out of the ground.

### ANOTHER NEVADA STAMPEDE

### Ten Thousand Dollar Rock Causes a Big Rush for Lovelock.

Two weeks ago John Cleghorn, a local prospector who has been "doing" Mont Ton ... 2.85 Nevada in the interests of himself and M'Namara ... .88 other Salt Lakers for some little time past, located a group of claims in what is known as the Seven Toughs district, about twenty miles northwest of Lovelock, in Humboldt county, not far from where the Nevada-Superior company is operating.

Tuesday evening he received a letter from J. R. Hunter, publisher of the Lovelock Tribune, advising him that Sacram a sensational strike had been made in the Therien ground, adjoining the claims which he had located and urging him to return to camp at once, as a rush into the district began on the

morning of the 24th.

The ore brought in by Therien Hunter stated in his letter, gave assay re-Denver Republican. Mr. Clympius has seven big claims comprising 120 acres, at the famous Bingham, Utah, camp, adjoining the Highland Boy mine of the Utah Consolidated. The latter mine was bought six years ago for mediately left for the camp. By Saturner of the consolidated worth more than the place of the consolidated worth more than the place of the camp. By Saturner of the camp of the \$18,000,000 on basis of its actual capitalization. Mr. Olympius, formerly a well-known business man of Denver, bought his property in Utah two years ago and has found it a rich property termed "Tonopah's 40" had got wind during the time he has spent in devel- of the discovery and were beginning to show up. Mr. Hunter told Cleghorn There is a great boom in progress that a genuine stampede was in progthe Bingham copper camp," he ress and that if the latter was wise he would lose no time in getting on to his

# NEW YORK HAS CONTACT.

The strength shown in the price of shares in the New York company is attributable to the report which comes from Park City to the effect that the contact has been cut in the lowest level of the property and that explorations on over their private wire: in it are of a most encouraging na-

& Smelting company has a smelter of its own also, which handles 1,000 tons a day.

"The present condition of the camp of the present condition of the camp of the simply a matter of doing work to ge some of the ore bodies or ened in the fissures at their juncture with the condations have been talked of for the tact, where, according to all rules of the camp, they ought to make big and stration and operation of some of the strong. At any rate, after dragging big properties. The merger of the Utah Copper company and the Boston the stock began to move a day or two

# RICH COPPER ORE.

# State Looks Good.

(Special to The Herald.) Price, Utah, March 28.—George W. McCall had assays a few days ago from

done on any of the claims.

An eighteen-inch fissure vein of albertite has been uncovered in the same section, but it is considered too small to work profitably, being so far away

\$52.48 and \$48.40 copper to the ton. Very little development work has so far been

# MAY DAY ORE VALUES.

defined .... 200

This show of an increasing capacity to move upwards had the effect of improving speculative sentiment over the outlook. There was little to show that operations have reached beyond strictly professional limits. The traders who made up the market, however, are of a somewhat more influential class than in the recent past and their operations are conducted with more boldness and show more force. The movement is based upon the assumption that the turn of the quarter with the expected relaxation in the monew market will bring in some outside demand for stocks and inaugurate more general speculative activity.

The professional contingent in the market is keenly alive to a possible opportunity to secure the advantage of such a revival in speculation. To obtain the advantage of higher prices for the meeting of this demand, measures for lifting the level of the market are inaugurated at this time. The continued tranquillity of the money market with the near approach of the period for meeting the quarterly regulrement has quieted the fears of fluries in the call money market during this week. Interest rates on time loans are distinctly declining and this adds to the confidence over the money situation.

Apparently the hope was indulged in that the remainder of the week was to be free from any disturbance in the money market whatever, but the rise late in the day in the call loan rate to 6 per cent proved rather a damper on this hope and served as a check on the price movement, which had gained considerable headway and breadth by that time. The movement started in a very spotty manner, the general list remaining inert in spite of the sharp advances in special stocks due to individual causes. The increased holdings of subsidiary stock by the Lake Shore disclosed in its annual report was the motive for some accumulation and sharp bidding up of the so-called junior Vanderbilts. The movement in Colorado Fuel was based on an assumption of advantage to accrue to that company from a soft coal strike from which it would be exempt strike on the anthracite industry. The argument today was that if the soft coal miners go out it will be considered advisable to keep the anthracite miners in

trict, is up from southern Nevada on business for his company.

Fourteen carloads of ore from Tintic, four from Bingham and six from Nevada were released from the Taylor & Brunton sampler yesterday morning.

About the first of the coming week George H. Robinson, general manager of the Brittain Copper company's properties at Howe Sound, B. C., is expected back from camp. Mr. Robinson is laying his plans, according to his friends, with the idea of being relieved of the active duties required of him at the present time. His health has been far from good for a Other sustaining movements were based

# GRAIN AND PROVISIONS.

Chicago. March 28.—The wheat market was inclined to be weak all day, but during the first part of the session a fair demand by shorts prevented any material break in prices.—The opening quotations showed moderate losses because of a decline at Liverpool and in the local market. May was down ½ to ½ % at 77% 077% 77½. The weakness at Liverpool was due to an official estimate which made the wheat crop of Victoria, Australia, 23,520,000 bushels, against 20,945,000 bushels last year.

Upon this basis it was claimed the crop will show a surplus for export of 15,520,000 bushels. In addition to these foreign advices, reports of heavy snow in southwestern Kansas and rains in Oklahoma and Texas were received. Primary receipts were liberal, and late in the day messages were received from various points in the southwest to the effect that ceipts were liberal, and late in the day messages were received from various points in the southwest to the effect that the new crop is making excellent progress. May dropped from 77% to 76%, closed % off at 76% q.77.

Despite the weakness of wheat, the corn market was firm for the greater part

# GETTING OUT FROM UNDER.

New York, March 28.-Vice-Presidents Robert A. Granniss and Walter R. Gillette and Trustee Elbridge T. Gerry of the Mutual Life Insurance company today tendered their resignation at a meeting of the board of trustees of that company.

A report of the Truesdale investigating committee was received and ordered printed but no other action was taken upon it.

# Drunkenness

Physicians pronounce drunkenness a disease of the nervous system. No "will power" can heal the stomach membranes which have been burned and seared by alcohol.

Cures Whiskey and Beer Habit ORRINE removes the craving for liquor by acting directly on the effected nerves, restoring the stomach and digestive organs to normal condition, improving the appetite and restoring the health. No sanitarium treatment or publicity.

To cure without patient's knowledge, buy ORRINE No. 1; for voluntary treatment, buy ORRINE No. 2. Price \$1 per box.

Cure Effected or Money Refunded A registered guarantee in each box. Book on "Drunkenness" (sealed) mailed free on request. All correspondence confidential. ORRINE mailed (sealed) on receipt of price by the ORRINE CO., Inc., Washington, D. C., or sold by

Smith Drug Co., Salt Lake City.
